

# ***DELFIN CHANGELOG***

LATEST  
VERSION 8.85

**DELTER**

A DIVISION OF ALTRON

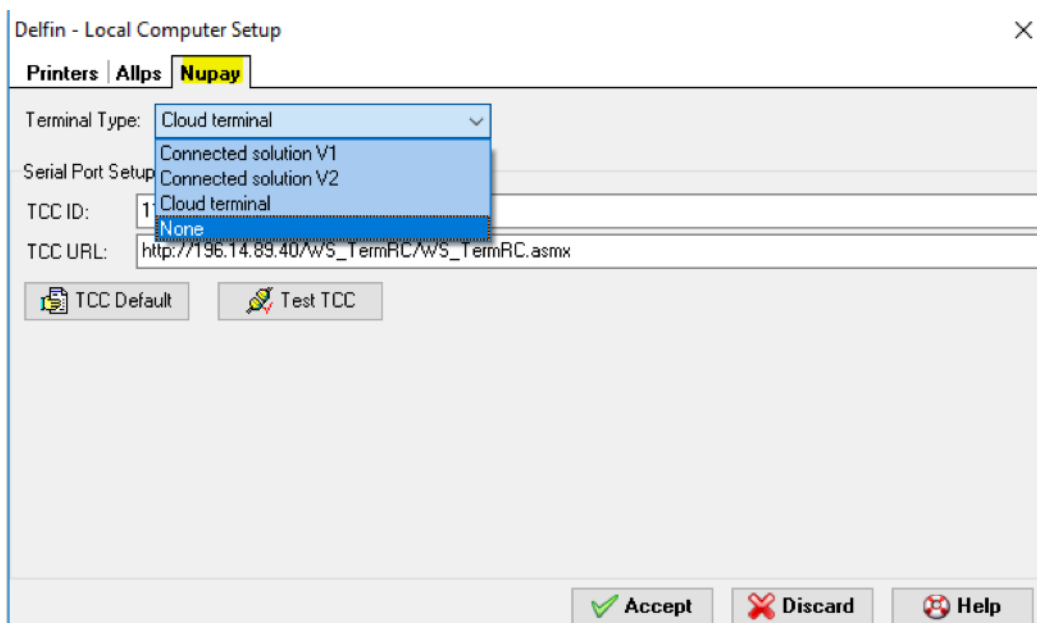

## CHANGES FROM VERSION 8.83

### Updates:

- » Delfin will now display a message when granting a loan with the ALLPS Terminal and an error occurs while printing the ALLPS promissory note.
- » Delfin will now allow you to 'retry' if an error occurred with creating a loan through ALLPS integration.

### New Features:

- » New Repayment Methods have been added for DebiCheck:
  - DebiCheck TT1 – With this Transaction type there is no terminal involved, the user's banking details are used to register loans.
  - DebiCheck TT3/Terminal – With this transaction type a terminal is used and the user is required to present a card and pin in order to register a loan.
- » Terminal Types have been added for existing and new terminal connection types.

- Connected solution V1 – Old AEDO integration Terminals
- Connected solution V2 – Old AEDO integration & DebiCheck Connected AEDO Terminals
- Cloud Terminal – Old AEDO TCC & DebiCheck TCC Terminals

» New Service Fee Calculation Type: **Pro Rata – Actual Days**

Service fee calculated pro rata for everyday of the entire loan, calculated on the actual amount of days in each month.

Service Fee Amount: R60

Calculation - **(60/Days in Month) \* Amount of Days for every month**

**E.g.**

Loan from 27/08/2018 to 25/09/2018

27/08 until 31/08

$(60 / 31 \text{ (days in August)} = 1,935483870967742) * 4 \text{ (actual days for loan in month: } 31 - 27)$   
= R7.74

+

01/09 until 25/09

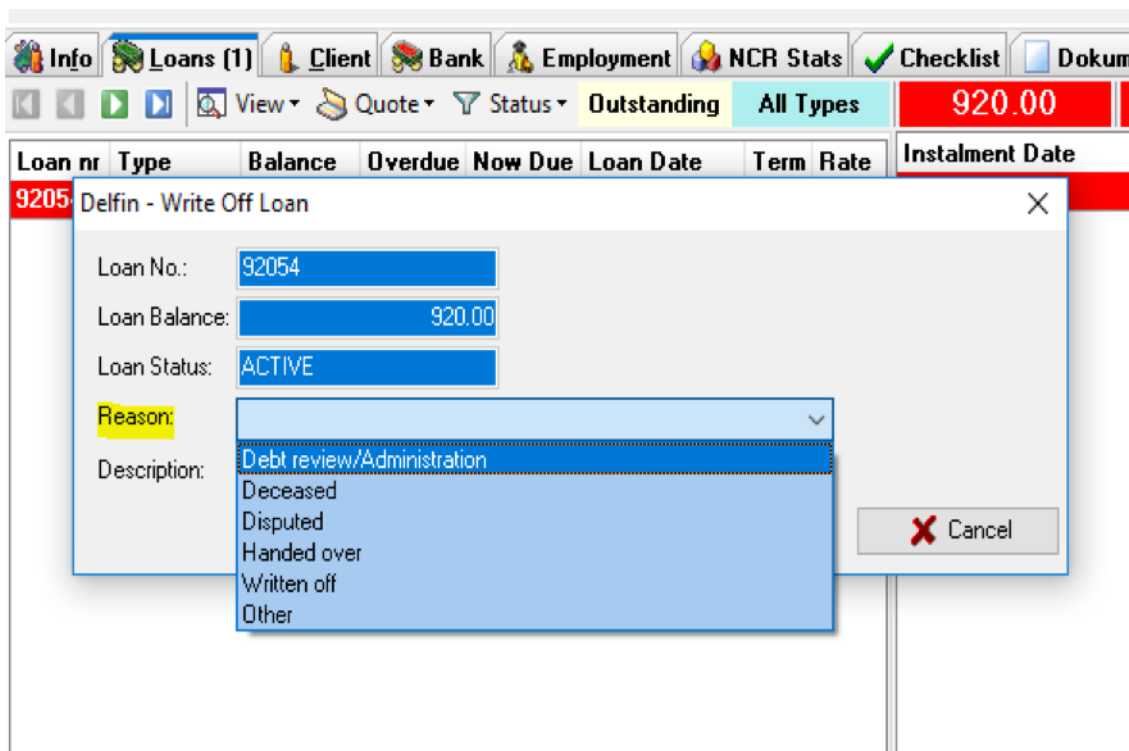

$(60 / 30 \text{ (days in September)} = 2) * 25 \text{ (actual days for loan in month)}$   
= R50

7.74 + 50

Total Service Fee for loan = **R57,74**

➔ Settlement for the Pro Rata – Actual Days service fee type will work as follows:  
Settlement will also be calculated pro rata on the actual amount of days passed.  
You will now only pay the service fee component that already occurred. While the rest will be settled.

» » Added a new reason to select when doing write-off's - "Debt review/Administration".

## Improvements:

- » Additional payout types can now be added in Delfin. If you wish to add a new Payout Type please contact our Support department.
- » The Local PC Setup has been updated. The NuPay Terminal settings are not divided into separate tabs anymore, instead there is one tab. The NuPay Tab now contains all Terminal information and set up settings.
- » Service Fee Calculation change for type: **Pro rata: Number of Calendar Months**  
The first Month's Service fee will now be charged pro rata for the actual days in the Month.

*(Service Fee amount / Days in Month) \* Amount of Days in Month  
= Service fee amount for the first Month*

### **Example:**

*Loan Creation Date: 14 June 2018*

*First Instalment Date: 14 July 2018*

*Service Fee will now be calculated Pro Rata for Month June and a full-service fee amount will be charged for July.*

*(R60 / 30days in June) = R2 service fee per day.*

*Actual Days: 30 June – 14 June = 16 days.*

*Service Fee for June = 16 \* R2 = R32.*

*Service Fee for July = R60.*

*Total Service Fee = R32 + R60 = R92.*
