

DELFIN CHANGELOG

LATEST VERSION 8.86

DELTER

A DIVISION OF ALTRON

CHANGES FROM VERSION 8.85

Updates:

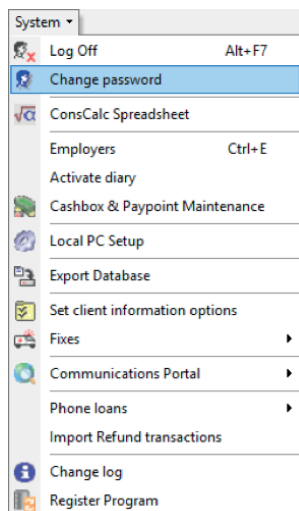

- » Fixed the issue where inactive receipt types still display when making a payment or receiving money on a paid-up loan.
- » Additional insurance on loans will now also be settled, if these additional insurance types were part of the loan and the loan is settled.

New Features:

- » Delfin V8.86 is integrated with NuPay for DebiCheck upload, reporting and maintenance of transactions – please engage with your CRC should you require further information.

Improvements:

- » Delfin registrations have been improved, Delfin now has a 'Heartbeat' function that does a check each day to see if the client has a valid Delfin registration.
- » The 'Password change' option moved away from the Login screen and can now be found on the "System" dropdown menu in Delfin.

- » If a client has the password policy active the policy will now display when changing a user's password

» Added an option to hide the Tracking settings option under Employer Maintenance in Delfin. This option is only to hide the tracking settings dropdown, it doesn't change the selected setting.
